

***SafetyBreaks!* Instruction Guide**

In this educator equipment packet you will find 5 lessons covering various aspects of traffic safety and alcohol abuse prevention. This page is to serve as a guide for the program.

In the *SafetyBreaks!* notebook each lesson has objectives, information fact sheets, game instructions, game materials and a homework assignment. The fact sheets contain information students will need to be able to acquire the most education and enjoyment out of the games. You, as the educator, can determine what format to provide this information so it will be most comfortable for you. You can either read the facts directly from the sheet or put your personal touch on that part of the lesson- It's completely up to you!

The Kansas *SafetyBreaks!* box includes:

- Fact Sheets
- Game Instructions and Materials
- Homework Assignments
- Additional Resources and Handouts

You will find:

- Letters of introduction to the *SafetyBreaks!* program
- Modules which include teaching instructions, activities, additional resources and proposed homework assignments.
- Modules covering:
 - Occupant Protection
 - Driving Dangers
 - In and Around Car Safety
 - Alcohol Prevention
 - Rules of the Road

Directly following the fact sheets, you will find instructions for that lesson's game. We have provided you with everything you will need for the games, from the instructions to any additional "parts or pieces" your class will need to play.

Here at the Kansas Traffic Safety Resource Office, we are confident you will find this educator equipment to be useful and discover that both you and your students enjoy the lessons that are being taught. Once again, thank you for participating in the *SafetyBreaks!* Program and striving to keep your students safe!
