

Top 10 Reasons Kansas Clicks

10. People can't laugh and point at your seat belt dragging along the road outside your car.

9. If you were meant to fly, you'd have wings.

8. It's better to wear them now in your car, than later in a wheel chair.

7. When you pass a patrol car, you won't have to become a contortionist to find your seat belt.

6. While Kansas roads are great, they're not so great for your complexion.

5. Crash dummies, Vince and Larry, have been through enough.

4. It's one belt that matches every outfit and never goes out of style.

3. You don't want to be the first at the scene of a crash.

2. It's easier to keep friends, if you're still alive.

1. Your mother told you to!!

Did Ya Know??

- Your chance of death or serious injury in a crash doubles for every 10mph over 50mph your vehicle travels.
- The safest way to transport any child is buckled up in the back seat of a car.
- The Kansas Child Passenger Safety Act is a primary law, which means a law enforcement officer can write a citation whenever an unbelted child 17 years of age and younger is observed not wearing a seat belt.
- Air bags, combined with use of lap and shoulder safety belts, offer the most effective safety protection available today for passenger vehicle occupants.
- Before going anywhere—even if it's only a few blocks—listen to your seat belt to make sure it “clicks!”
- Always make sure your passengers “click” their seat belts.
- Wear your seat belt low and snug over your hips.
- The shoulder belt should lie across your chest and over your shoulder. If it cuts across your neck, try sliding toward the buckle.
- Never place the belt under your arm or behind your back. This could cause serious injury or death in a crash.
