THE REAL SPEED TRAP

Speeding  [SPEE-ding] noun
1. driving faster than the speed limit
2. driving too fast for conditions

If you speed:
» You can’t go around curves or things in the road as well
» It takes longer for your vehicle to stop
» Your vehicle will go farther before you are able to react to anything in the way
» Makes crashes and injuries more likely since other drivers and pedestrians can’t always tell how fast you’re going

Around 85% of all speeding-related deaths happen on roads with a speed limit of 55 miles per hour or less.
