

ASK A DUMMY: VINCE AND LARRY'S ADVICE COLUMN

Dear Vince and Larry,

What are some of the weirdest distracted driving stories you've heard of?

@ksmultitaskr

Vince: Distracted driving can happen whenever something takes your mind off of driving, your hands off of the steering wheel, or your eyes off of the road.

Larry: But there's so much to see! And driving can be so boring.

Vince: It's your job to stay focused when you drive. That means no phone -

Larry: Duh. They asked about weird stories, Vince.

Vince: Well, there are tales of people spilling hot coffee in their laps.

Larry: Ouch.

Vince: Driving while reading or watching movies -

Larry: You wouldn't catch me doing that. Not even when I want to have a *Cars* marathon.

Vince: Some folks think it's okay to change clothes while their vehicle is moving.

Larry: That'd be especially dangerous if you wore a jumpsuit like we do.

Vince: And would you believe there are people who put on makeup, comb their hair, or shave while driving?

Larry: Shaving's not so strange.

Vince: ...unless it's your legs.

Larry: WHAT?!?!

Vince: Don't be a distracted driver. Buckle up and drive SAFE!
